

## Silk Flower Fusing – Flower Vase Wall Hanging 18” x 22”

### Supplies –

Silk flowers (fabric no plastic)  
Background fabric square, 1 fat quarter  
**606 Spray and Fix**  
Scrap fabric for vase  
Spray box – Cardboard box with quarter  
inch screen to create raised bed Iron  
Parchment paper / baking paper  
Batting and backing fabric, 1 fat quarter each  
Basting Spray – **505 Spray and Fix**  
Hot fix crystals or beads

### Instructions –

1. Pull silk flower off the plastic stems.
2. Press flowers flat with iron.
3. Place flowers wrong side up in the spray box and coat with 606 Spray to create a snowy covering. Here is a link to blog showing how to make a spray box - <http://www.sew-craft.com/blog/?p=26>.
4. Cut out vase shape and press flat with iron. Place in spray box and coat with 606.
5. Place vase at bottom center on the background fabric. Arrange flowers above vase. Once you are happy with the display cover with parchment paper and iron on a high cotton setting. About 15 seconds for the silk flowers and about 35 – 40 seconds for the fabric vase.
6. Embellish centers of flowers with hot fix crystals or beads.
7. Layer backing, batting and top. Peel top back to the half way point and spray the batting lightly with **505 Spray and Fix**. Roll top forward over sprayed area and lightly pat in place. If wrinkles occur lift up and reposition as needed. Repeat on opposite half of your quilt. The top is now completely stuck to the batting. Next turn quilt over and spray batting and stick the backing in place. Machine or hand quilt.

Here are other YouTube videos that show how to do fuse silk flowers with **606 Spray and Fix**. <https://www.youtube.com/watch?v=sp5Xsly-6Rl>
